Additional Performance Credit Calculations and Supplemental Information

Describe below the progress made in meeting your program year work plan inspection goals. You must provide quantitative results for each compliance inspection and land application goal listed in your work plan.

Inspection strategy and goals for 2023: Renville County will inspect sites within = 6, Inspect all non-NPDES sites on a 4 year rotation = 67. I requested an addendum to the work plan to change in-field land application inspection to zero. Work completed in 2023: sites inspected within shoreland = 6, Inspect all non-NPDES site on a 4-year rotation = 59. Renville County made 6 site visits where we closed the feedlot. One of the feedlots that was on this year's inspection list had a change of ownership and by the time we were able to track down the new owner, the year had ended.
