- The right of any person to know what types of data are collected by Renville County about that person and how that data is classified;
- The right of any person to inspect at no charge data classified as public at reasonable times and places subject to reasonable charges that may be imposed as authorized by Minn. Stat. 13.03, subd. 3(c) for searching for and retrieving the data;

A BRIEF OVERVIEW OF THE MINNESOTA GOVERNMENT DATA PRACTICES ACT

The Minnesota Government Data Practices Act regulates the management of all government data that are created, collected, received, or released by a government entity no matter what form the data is in or how or where it is stored or used.

The Act regulates:

- what data can be collected;
- who may see or get copies of the data;
- the classification of specific types of data;
- the duties of personnel in administering the Act;
- procedures for access to the data;
- procedures for classifying data as not public;
- civil and criminal penalties for violation of the Act; and
- the charging of fees for copies of data.

Government data is either *data on individuals* or *data not on individuals*. Data on individuals is classified as either public, private, or confidential. Data not on individuals is classified as public, nonpublic, or protected nonpublic. This classification system determines how data is handled (see chart below).

Data on Individuals	Meaning of Classification	Data Not on Individuals
Public	Available to anyone for any reason	Public
Private	Available only to the data subject and to anyone authorized in writing by the data subject or by court order or law to see it	Nonpublic
Confidential	Not available to the public or the data subject	Protected Nonpublic

COLLECTION OF GOVERNMENT DATA

What is the Minnesota Government Data Practices Act?

The Minnesota Government Data Practices Act (MGDPA) is in Chapter 13 of Minnesota Statutes. It controls how government data is collected, created, stored, maintained, used and disseminated.

What is government data?

Government data is all data maintained in any form by state and local government entities. As long as data exists in some form in a government entity it is government data no matter what physical form it is in or how stored or used. Government data may be stored on paper forms/records/files, in electronic form, on audio or video tape, on charts, maps, etc. Government data may include oral statements but usually does not include mental impressions of a government official not existing in some other format.

Persons or entities licensed or funded by or under contract to a government entity are subject to the MGDPA to the extent specified in the licensing, contract, or funding agreement.

STAT. § 15.17, subd. 1 requires all officers and agencies of the county to make and keep all records necessary for a full and accurate knowledge of their official activities. Requirements for collecting, creating, maintaining, storing, and disseminating data are in MINN. STAT. CH. 13 AND MINN. R. 1205, the Minnesota Government Data Practices Act and Rules. Links for locating the statutes and rules are in Appendices B and C.

IX. RIGHTS OF DATA SUBJECT

A. TENNESSEN WARNING - Rights of Subjects of Data

1. Except for law enforcement investigations, every agency that collects private and confidential data from an individual concerning that individual shall, prior to collecting the data, inform the individual of their rights as a subject of data. The notice must be given whenever:
 - a. A government entity requests data; and
 - b. The data is requested from an *individual*; and
 - c. The data requested are *private or confidential*; and,
 - d. The data is *about the individual* from whom it is requested.

All four of these conditions must be present before a Tennessee warning must be given. These rights are referred to as the Tennessee Warning or Data Practices Rights Advisory.

A Tennessee Warning may be given but is not required when private and confidential data is collected from an individual who is not the subject of the data.

2. The Tennessee Warning consists of the following information that must be communicated to the individual from whom private or confidential data concerning the individual is collected.
 - a. The purpose and intended use of the data. This is why the data is requested and how it will be used.
 - b. Whether the individual may refuse or is legally required to supply the data. The subject has the right to know whether or not she/he is required to provide the data.
 - c. Any consequences to the individual of either supplying or refusing to supply the data. The entity is required to state the consequences known to the entity at the time when the notice is given; and

d. The identity of other persons or entities that may be authorized to receive the data. The notice must identify recipients that are known to the entity at the time the notice is given.

NOTE: In accordance with the Federal Privacy Act of 1974 any federal, state, or local agency that requests an individual to disclose their social security account number shall inform that individual whether that disclosure is mandatory or voluntary, by what statutory or other authority such number is solicited and what uses will be made of it.

3. Tennessen Warnings may be either oral or written.

- a.** Oral communication is not the preferred method of communicating the Tennessen Warning, but it may be necessary under some circumstances. If an oral communication is necessary, the specific language communicated must be in written form and contained in the departmental data practices procedures and the situation documented.
- b.** A written communication requiring the signature of the data subject (i.e., a signature attesting the individual from whom private or confidential data is collected has read and understands their rights pertaining to the requested data). The Tennessen Warning may be included on the form that collects the private or confidential data.

4. A sample format for a Notice of Rights Tennessen Warning is on page 30.

B. NOTIFICATION TO MINORS

A minor has the right to request the entity withhold private data about her/him from the parent or guardian. The entity may require the request be in writing. A written request must include the reasons for withholding the data and must be signed by the minor.

Upon receipt of the request, the responsible authority must determine whether honoring the request is in the best interests of the minor. The responsible authority must consider at a minimum:

- 1.** Whether the minor is mature enough to explain the reasons for the request and to understand the consequences of making the request;
- 2.** Whether denying access to the data may protect the minor from physical or emotional harm;
- 3.** Whether there is a reason to believe the minor's reasons for denying access to the parent(s) are reasonably accurate; and
- 4.** Whether the nature of the data is such that disclosing the data to the parents could lead to physical or emotional harm to the minor. Minn. Rule 1205.0500 contains the procedures for the release of data about minors.

C. INFORMED CONSENT

1. Private data on individuals may be used by and disseminated to any entity, individual or person by the responsible authority or the designee if the subject or subjects of the data have given informed consent.

NOTE: Informed consent cannot authorize release of confidential data on individuals since the data subject has no right to the data and therefore cannot authorize another a right to access.

2. Private data shall be disseminated to any person or entity if the subject or subjects have given their valid informed consent.
3. All informed consents shall be in writing.
4. Informed consent shall not be deemed to have been given by an individual subject of the data by the signing of any statement authorizing any person or agency to disclose information about the individual to an insurer or its authorized representative unless it is:
 - a. In plain language;
 - b. Dated;
 - c. Specific in designating the particular government entity the data subject is authorizing to disclose data about the data subject;
 - d. Specific as to the nature of the data the subject is authorizing to be disclosed;
 - e. Specific as to the persons to whom the subject is authorizing data to be disclosed;
 - f. Specific as to the purpose or purposes for which data information may be used by any of the persons named in clause(s), both at the time of the disclosure and at any time in the future; and
 - g. Specific as to its expiration date, which must be within a reasonable period of time. In the case of authorizations given in connection with applications for life insurance or non-cancellable or guaranteed renewable health insurance and identified as such, the consent shall not exceed two years after the date of the policy.
 - h. An authorization in connection with medical assistance under chapter 256B or MinnesotaCare under chapter 256L, or for individual education plan health-related services provided by a school district under section 125A.21, subdivision 2, is valid during all terms of eligibility.
5. Informed consent for health insurance purposes must comply with Minn. Stat. §13.05, unless otherwise pre-empted by the HIPPA Standards for Privacy of Individually Identifiable Health Information, 45 C.F.R. 164.

6. Informed consent for other purposes may be valid for longer than one year if the consent otherwise meets the above requirements.
7. The informed consent for the disclosure of alcohol and drug abuse patient records may be made only if the consent is in writing and expressly states the request is for alcohol or drug abuse patient records. It should contain the following:
 - a. The name of the program that is to make the disclosure;
 - b. The name or title of the person or organization to which disclosure is to be made;
 - c. The name of the patient;
 - d. The purpose or nature of information to be disclosed;
 - e. The extent or nature of information to be disclosed;
 - f. A statement that the consent is subject to revocation at any time except to the extent that action has been taken in reliance thereon and a specification of the data, event, or condition upon which it will expire without express revocation;
 - g. The date the consent is signed; and
 - h. The signature of the patient and, when required, of a person authorized to give consent.
8. A sample format is on page 32 of this manual.

D. PROCEDURES FOR COMPLYING WITH DATA REQUESTS FROM AN INDIVIDUAL

The responsible authority shall ensure each department establishes procedures to comply with requests for government data in an appropriate and prompt manner.

1. Upon request to the responsible authority, an individual shall be informed whether they are the subject of stored data on individuals and whether it is classified as public, private, or confidential.
 - a. The responsible authority shall provide access to the private or public data upon request by the individual subject of the data.
 - b. An individual may contest the accuracy or completeness of public or private data. If the individual notifies the responsible authority, in writing, as to the nature of the disagreement with the data, the responsible authority shall, within 30 days, either correct the data and attempt to notify past recipients of inaccurate or incomplete data, including recipients named by the individual, or notify the individual that the responsible authority believes the data to be correct. Subsequently, data in dispute shall be disclosed only if the individual's statement of disagreement is included with the disclosed data.

2. The responsible authority shall prepare a public document setting forth, in writing, the rights of the data subject and specific procedures in effect in the county for access by the data subject to public or private data on individuals.
 - a. When a request is denied, the responsible authority must inform the requestor orally at the time of the request, and if requested in writing as soon thereafter as reasonably possible, and shall cite the statute, temporary classification or federal law on which the determination is based.
 - b. The responsible authority shall require the requestor to pay the actual costs of making and certifying copies of the data requested, except those exempted in Section V., subd. A. The requestor may not be charged for separating private or confidential data from public data.
 - c. The responsible authority shall reasonably inform the requestor of the data's meaning if asked to do so.

E. IF RENVILLE COUNTY DETERMINES THAT CHALLENGED DATA ARE ACCURATE AND/OR COMPLETE AND THE DATA SUBJECT DISAGREES WITH THAT DETERMINATION, THE SUBJECT HAS THE RIGHT TO APPEAL THE DETERMINATION TO THE COMMISSIONER OF ADMINISTRATION

1. The subject has the right to take this step after both the subject and the county have properly completed all the steps in the data challenge process. The subject may appeal only the county's determination about the accuracy and/or completeness of data.
2. The requirements for filing an appeal are in Minnesota Rules Section 1205.1600.
3. Procedure when data is not accurate or complete.
 - a. An individual subject of the data may contest the accuracy or completeness of public or private data. To exercise this right, an individual shall notify, in writing, the responsible authority describing the nature of the disagreement. The responsible authority shall, within 30 days, either:
 - 1) Correct the data found to be inaccurate or incomplete and attempt to notify past recipients of inaccurate or incomplete data, including recipients named by the individual; or
 - 2) Notify the individual that the authority believes the data to be correct. Data in dispute shall be disclosed only if the individual's statement of disagreement is included with the disclosed data.
4. The determination of the responsible authority may be appealed pursuant to the Administrative Procedure Act, MINN. STAT. § 14.57 to 14.62 and Minn. R. 1205.1600, relating to contested cases. Upon receipt of an appeal by an individual, the Commissioner of Administration shall, before issuing the order and notice of a contested case hearing required by Chapter 14, try to resolve the dispute through education, conference, conciliation, or persuasion. If the parties consent, the Commissioner may refer the matter to mediation. Following these efforts, the Commissioner shall dismiss the appeal if resolved or issue the order and notice of hearing.

- a.** Data on individuals successfully challenged by an individual must be completed, corrected, or destroyed without regard to the requirements of Minn. Stat. § 138.17.
 - b.** After completing, correcting, or destroying successfully challenged data the county will retain a copy of the Commissioner of Administration's order issued under Chapter 14 or, if no order was issued, a summary of the dispute between the parties that does not contain any particulars of the successfully challenged data.

X. ROLE OF THE COMMISSIONER OF ADMINISTRATION

- A.** Pursuant to Minn. Stat. Section 13.06, subd. 4, the Commissioner of Administration is given the authority to approve new uses and disseminations of private and confidential data on individuals.
- B.** Minn. Stat. Section 13.06 gives the Commissioner certain powers with regard to approving temporary classifications of data.
- C.** Minn. Stat. Section 13.072 gives the Commissioner authority to issue advisory opinions concerning the rights-of-data-subjects and the classification of government data. Commissioner's opinions are found at www.ipad.state.mn.us.

XI. CONSEQUENCES FOR NOT COMPLYING WITH THE MGDPA

- A.** Pursuant to Minn. Stat. 13.08, a government entity and employees may be sued for violating the Act.
- B.** Minn. Stat. 13.085 provides an administrative process to compel compliance with the Act.
- C.** Minn. Stat. 13.09 provides criminal penalties and disciplinary action as extreme as dismissal from public employment for anyone who willfully (knowingly) violates the Act.

APPENDIX E

DATA SECURITY BREACH PROTOCOL

APPENDIX E DATA SECURITY BREACH PROTOCOL

Part 1. Purpose.

This protocol is intended to assist Renville County in implementing the requirements of Minn. Stat. § 13.055 that is intended to provide timely and appropriate notice to individuals who are affected by a breach of the security of their private or confidential data. All employees must immediately report known or potential breaches of security to the responsible authority and their supervisor. The County Attorney's Office, in consultation with the affected department or office or Information Technology personnel, as appropriate, shall determine whether notice of the potential breach is required and, if so, how the notice will be provided.

Part 2. Definitions. Minn. Stat. 13.055, Subd. 1 (in part)

Subpart A. Potential Data Security Breach. A situation or incident that provides a reasonable basis to believe not public data may have been compromised or accessed for a purpose not authorized by law or by a person or entity not authorized by law to have access to such data.

Subpart B. Breach of the security of the data. Breach of the security of the data means the unauthorized acquisition of data maintained by the county in any medium that compromises the security and classification of the data, but not including the good faith acquisition by an employee, contractor or agent of the county if not provided to an unauthorized person.

Subpart C. Contact Information. Contact information means either name and mailing address or name and e-mail address for each individual who is the subject of data maintained by the county.

Subpart D. Unauthorized acquisition. Unauthorized acquisition means a person has obtained government data without the informed consent of the individuals who are the subjects of the data or lacks statutory or other legal authority and with the intent to use the data for non-governmental purposes.

Subpart E. Unauthorized person. Unauthorized person means any person who accesses government data without permission or without a work assignment that reasonably requires the person to have access to the data.

Part 3. Guidelines

Subpart A. Reporting a Potential Breach. Any employee who knows of or reasonably believes breach of the security of private or confidential data may have occurred must immediately report to his or her supervisor and the county's responsible authority. (R.A.)

The report should include the date and time of the report, when the breach occurred (if known); the type of data involved; the approximate number of affected individuals, if known, and other pertinent data. The attached form should be used for that purpose whenever reasonably possible.

Employees who, in good faith, report a potential or actual breach under these guidelines will not be subject to retaliation for making such a report.

Subpart B. Breach Affected Division Response Process. After a potential breach of security has been reported, the responsible authority will work with the affected department or office to take necessary steps to contain and control the integrity of the data handling systems impacted by the potential or

reported breach and conduct a preliminary internal assessment of the scope of the potential breach. Applicable Information Technology (IT) staff and security procedures or other guidelines may be consulted as set forth in this policy.

If the potential breach is on a county computing system that contains or has network access to private or confidential data, the R.A. shall consult with IT personnel and consider control measures that may include but are not necessarily limited to removing the computing system from the network.

- (a) **Determining Breach.** The responsible authority shall consult with the affected staff supervisor to determine whether a breach of security of data has occurred.
- (b) **Incidents.** Examples of the types of incidents that may result in a notice triggering breach include, but are not limited to:
 - i. Evidence of unauthorized access into a computer system containing private/confidential data;
 - ii. Missing documents or papers or stolen or missing laptop, desktop, storage device or other types of information technology resource containing files with private/confidential data;
 - iii. Documents containing private/confidential data sent in any form to a wrong recipient;
 - iv. IT Systems containing private/confidential data that has been compromised; or
 - v. Employee misuse of authorized access to or disclose of private or confidential data.
- (c) **Acquisitions.** Minn. Stat. Sect. 13.055, subd. 2 requires government entities to notify individuals if their private or confidential data has been or is reasonably believed to have been acquired by an unauthorized person. In making that determination, the following factors, among others, may be considered:
 - i. Indications that the data is in the physical possession and control of an unauthorized person, such as a lost or stolen computer or other device or documents containing unprotected private or confidential data.
 - ii. Indications that the data has been downloaded or otherwise acquired.
 - iii. Indications that the data was used by an unauthorized person such as a fraudulent account opened or an instance of identity theft reported;
 - iv. The encryption protection of the data, if any; v. Duration of exposure;
 - vi. The extent to which the compromise of electronic data indicates a directed attack such as a pattern showing that the device itself was specifically targeted; or
 - vii. Indications that the attack was intended to seek and collect private or confidential data.

1. **Timing of Notification.** If a breach has been determined, in most instances, the affected department or office has primary responsibility to notify affected individuals and may be assisted by the R.A. Notice is to occur without unreasonable delay. Notice maybe delayed due to a) the legitimate needs of a law enforcement agency; or b) any measures necessary to determine the scope of the breach and restore the reasonable security of the data.

Immediate notification may be appropriate in the event of a breach that could have immediate deleterious impact on individuals whose data may have been acquired by an unauthorized person.

2. **Contacting Law Enforcement.** The responsible authority or designee(s) shall contact law enforcement agencies if the breach of security is believed to involve illegal activities. Data may be shared with law enforcement consistent with applicable data practice laws. If law enforcement is contacted, it should be informed of the County's practice to provide notice to affected individuals. If law enforcement advises such notice would impede an active criminal investigation, notice may be delayed. Delayed notice should be sent out as soon as law enforcement advises it would no longer impede the criminal investigation.
3. **Whom to Notify.** The responsible authority, in consultation with other appropriate county personnel, including but not limited to the affected department or office, shall determine the scope of the notice. Notice of a breach must be provided to any individual whose private or confidential data has been or is reasonably believed to have been acquired by an unauthorized person. If specific individuals cannot be identified, notice should be sent to groups of individuals likely to have been affected, such as all whose data is stored in the database of files involved in the breach. Measures should be taken to prevent notice lists from being over-inclusive. If questions arise regarding the scope of the notice required, the County Attorneys' Office may be contacted for guidance.

Subpart C. Notice.

1. **Content.** The responsible authority or designee shall consult with the affected department or office on the wording of a notice. IT personnel may also be consulted where appropriate. Notices shall generally be sent separate from other documents. The notice should use clear and plain language.

The following should generally be included in the notice:

- (a) A general description of what happened and when, to the extent known.
- (b) The nature of the individual's private or confidential data that was involved, but not listing the specific private/confidential data.
- (c) Information about what the county has done to protect the individual's private/confidential data from further disclosure.
- (d) Institution assistance, such as website information or telephone number, for further information about the incident.
- (e) Information, such as Web sites, about what individuals can do to protect themselves against identity theft, including contact information for nationwide credit reporting agencies.
