

RENVILLE COUNTY Holding Tank Servicing Contract

We, the undersigned, agree to remove the contents of the holding tank at the location identified below prior to overflow or any discharge. We also agree to the installation of a mechanical or electric alarm device to monitor the liquid in the holding tank. The monitoring device shall identify when the holding tank is at 75% capacity.

Pumping records must contain the following information:

- The name of the person or firm responsible for servicing the holding tank.
- The name and address of the owner of the holding tank.
- The dates the holding tank was serviced.
- The number of gallons removed from the holding tank.
- The disposal location to which the contents from the holding tank were delivered.

Either party shall have the right to terminate this contract at any time but shall notify the Renville County Environmental Services upon doing so.
