

Lake Allie County Park: Construction Update

Construction of a new bathroom and shower house has started at Lake Allie and will continue throughout the summer.

This will change how things look and feel at the park this year:

- The **north half** of the park is mostly **off-limits**.
- **You can still use the fishing pier and dock**, but please stay behind the caution tape near the shelter and parking lot.
- The **north entrance is closed** and is for construction crews only.
- The **only entrance** is now the **south entrance**, and we ask that it's **used only by campground guests** due to limited space.

We'll keep you updated and share pictures as the project progresses. Thanks for your patience and cooperation!

If you have questions, contact Jesse Diehn, Parks Manager, at 320-523-3747.
